

## **Join Pennsylvania Health Access Network for Community HealthChoices (CHC) Listening Sessions in SEPA**

Do you work with people who are eligible for Community HealthChoices (CHC), Pennsylvania's new Medicaid program for older adults and people with disabilities?

In partnership with the Pennsylvania Office of Long Term Living and Philadelphia Health Partnership, Pennsylvania Health Access Network (PHAN) is hosting community listening sessions throughout Southeastern PA to hear about participants' experiences using the program and to make sure they have all the information they need to get enrolled and get the services they need to live well and independently.

We need your help getting the word out to make sure the voices of people using CHC are heard! Please share this information with anyone who uses the program or has questions about the program. People enrolled in Community HealthChoices, caregivers, and anyone interested in learning more about home-based services for older adults and people with disabilities are encouraged to attend.
